VOL. 1, No. 96

BLAIRMORE, ALBERTA, FRIDAY, APRIL 4, 1947

\$2.00 PER ANNUM

"Serve the Church that the Church May Serve You."

## CENTRAL UNITED CHURCH BLAIRMORE

Rev. James McKelvey, Minister

### Services Sunday next:

11.00 a.m., Senior school.  
2.00 p.m., Junior school.  
7.30 p.m., Public Worship.

## ST. LUKE'S CHURCH, BLAIRMORE (Anglican)

Rector: Rev. Laurence S. Mann

### SERVICES

Good Friday 10 a.m.  
Easter Sunday Choral Eucharist  
11:15 a.m.  
Church school 12:30 p.m.

## SALVATION ARMY, COLEMAN

Captain and Mrs. T. Smith,  
Officers in charge.

### Sunday services:

11 a.m., Holiness meeting.  
2.30 p.m., Directory class.  
3 p.m., Sunday school.  
7.30 p.m., Salvation meeting.  
Tuesday: 7.30 p.m., Red Shield Auxiliary and Home League.  
Thursday: 8 p.m., Praise meeting.  
Funerals, dedications and marriages on application to the local officers.

## HILLCREST UNITED CHURCH

Services every Sunday at 3 p.m.

## BELLEVUE UNITED CHURCH

Services at 2.30 p.m. every Sunday.

## COWLEY UNITED CHURCH

Services alternate Sunday mornings at 11 o'clock.

Rev. W. H. IRWIN, Minister.

## BELLEVUE BAPTIST CHURCH

Pastor: Rev. Fred Bennett

Sunday school 10 a.m.  
Morning worship 11 a.m.  
Evening service 7.30 p.m.  
Midweek meeting:  
Wednesday 7.30 p.m.  
A cordial welcome awaits you.

Wilfred Welsh and Evan Evans of the Lundbeck district were Pass visitors last week end.

Mr. and Mrs. Frank Morgan and daughter will spend the week end holidays in Calgary.

## Crystal Home Beauty Shop

### Hair Dressing

done by

HAZEL OLIVER

18 years experience

offers you permanents at good value and reasonable prices. Hair cut and styled to suit patron.

Situated at

"Crystal Dairy"

Phone 80W

## Easter Tea and Sale of Home-Cooking

will be held in  
BLAIRMORE UNITED CHURCH Auditorium

Saturday - April 5th

under auspices of THE LADIES AID

3 to 5:30 p.m. -- Tea 35c

Fruit Salads will be served.

COME and BRING YOUR FRIENDS

### HILLCREST HAPPENINGS

Mrs. E. Pryde and Mrs. G. Fry were Calgary Visitors last week.

Mr. and Mrs. Bercoffs and children left Hillcrest last Sunday for Edmonton. They will reside on a farm near the city.

Mr. Rinaldo D'Amico, who is residing at Toronto, is here for an indefinite stay.

Mr. L. Beaver had the misfortune to injure his eye while working in the mine. The injury necessitated the removal of his eye.

Mr. and Mrs. S. Semey, are receiving congratulations on the birth of a son on Sunday, March 30.

Miss Irene Nykolachuk accompanied her uncle and aunt, Mr. and Mrs. V. G. Horejsi, of Frank, to Lethbridge over the week end.

### "ANONYMOUS" LETTERS ARE HEADACHE TO PRICES BOARD

Anonymous letters are a headache to any man's country to those who receive them. Most common recipients are newspaper editors, writers, legislators and... the latest... the Wartime Prices and Trade Board.

Dozens of letters reaching the Prices Board are "anonymous" in that they are signed either "Mrs. Farmer", "Harrassed Housewives", "Just a Canadian", "Disatisfied With Prices", and so forth. Most are from women—housewives who buy groceries and pay rent. The writers usually complain they are charged what they think is too high a price for this or for that, a pound of butter, can of syrup, prunes or oranges, at the corner store, or else for cookies, biscuits or cake at the bakery. Many letters concern rent.

Usually the information given in a letter is meagre. "We can't investigate all we know who to see to get the facts," said one harassed Prices Board official. "They must let us have their names, as well as the name of the store before we can do anything about it," he emphasized. "They should also secure a bill or invoice for what they bought in order to show what price they paid," he said.

People writing to complain about what they believe to be excessive prices, whether for goods in a store or rent for a dwelling accommodation, should sign their names and give their addresses so that board officials can contact them. They should also give the name of the store in the case of goods, or the landlord in the case of a rental dispute.

"No official can investigate until he knows where to go and who to see about the complaint," this board officer explained. "But even at that I suppose they'll keep on writing without signing their names," he added.

The winners of the articles sent by Mrs. Drumm to the local Red Cross were drawn as follows:

1st, V. Voytko, No. 121.

2nd, Mrs. R. K. Lillie, No. 132.

3rd, Mrs. J. Wolstenholme, No. 111.

The sum of \$44.00 was raised on these articles and has been forwarded to Calgary as a part of Blairmore's drive for funds in the current campaign.

### TO SPEND \$1,000,000 ON EAST KOOTENAY ROADS

Over \$1,000,000 has been budgeted by the BC department of public works for road and bridge work this year in East Kootenay along the southern provincial highway between Gray Creek and Crows Nest.

The section between Cranbrook and Fernie will receive half of the total amount. Twelve miles between Jaffray and Wardner will be completely reconstructed with an estimated expenditure \$500,000; 12 miles of the Jaffray-Elko section has been allotted \$144,000. The 20 miles between Cranbrook and Wardner are partly surfaced and work of re-routing a section of the road was authorized last year. The road from Cranbrook to Yoho, about 45 miles, is completely surfaced.

Revision of the main road at Yoho has been assigned \$15,000. A considerable assignment has been made for the Yoho-Creston section, with \$70,000 to be spent on the section from the Cranbrook boundary to the Goat river and \$15,000 for the notoriously rough section from Goat River to Creston. An additional \$28,000 will be spent on a one-mile section in the eastern end of the Nelson division. Michel-Natal has been allotted \$100,000.

Bridge work in the Cranbrook district includes a \$50,000 project combining Yoho Slough and Moyle River bridges, and \$150,000 for bridge work in the Fernie area.

### PRICES BOARD WARNS BUTTER INVENTORY PROFITS WILL BE REFUNDED IF PRICE GOES UP

The Wartime Prices and Trade Board announced today that if and when any increase is allowed in butter prices, all persons holding butter stocks will be required to refund inventory profits which may result from such an increase. This is in line with the statement made in the House of Commons March 17 by Agriculture Minister Gardiner.

Board officials stated that this announcement was being made now following reports from many parts of Canada that some creameries and distributors were withholding butter from sale with the expectation of making extra profits in the event of such price increases.

Board officials emphasized that this recovery of inventory profits, will apply to all classes of butter distributors, from manufacturers to retailers.

### ENTERPRISE SCOTLAND

Scotland is to hold a big exhibition in August, 1947, where visitors will see the scope and enterprise of its many industries. It will be called "Enterprise Scotland." All Scottish industry will be represented and a predominant part will be taken by the main groups such as textiles and shipbuilding and a number of light industries including pottery, glass, leather goods and domestic appliances.

### FRESH START

Pre-discharge medical and dental examinations and treatment are declared by national health authorities to have ensured that the great majority of Canada's veterans are even healthier now, than when they first enlisted. Not only did those now taking off uniforms benefit by the routine of service life, say the doctors, but they have been ensured a fresh start in life, thanks to a thorough check on their physical condition, and early detection of and attention to possible minor ailments. The health authorities recommend such periodic health examinations for everyone.

### MEDICINE DOSAGES

People who take more than the prescribed dosage of medicines are taking chances with their very lives, say health authorities.

"Enough is more than a feast, when it comes to medicine," they point out. "Sometimes people who find that certain medicines help them, are tempted to exceed the specified dosage. They forget that recommended doses of medicine are based on known body reactions to the constituents."

### A FEW HINTS ON PAINTING

Practically every householder gets ideas about gabbling around with a paint brush at this time of year. A lot of so-called amateur painters do a great job of keeping their homes clean and colorful in their spare time. Others have difficulty getting the wall or cupboard or shelf to look just the way they have pictured it to themselves before they start.

And yet, be the outcome of their efforts good or just fair, a lot of people turn out a paint job that is not as good as it could be for the simple reason that they fail to mix the paint thoroughly before they start. A few quick stirs after the can is opened, and away they go at the painting. That isn't the way paint was meant to be used.

To realize the importance of thorough mixing of paint, the user has to keep in mind that he is working with a complex material consisting of oil, pigment, dryer and thinner. The proportions of each in any can of paint is a matter of careful technical measurement so that the resulting paint can do its complete job of protection and beautification. Because of their different densities, all these materials tend to separate upon standing—and the mixture becomes good paint again only after they are completely blended together again before using.

Stirring is the most common method of recapturing this perfect blending of materials. It would be a sound method provided sufficient stirring is done—but, human nature being somewhat on the impatient side, most people stop stirring before the complete mixing has been accomplished.

A more satisfactory way of assuring complete material blending in paint is by the use of a second can into which half or two-thirds of the material from the top of the original can may be poured. The pigment and liquid left in the first can are thoroughly stirred until no heavy pigment is left on the bottom and until the mixture is perfectly smooth and uniform. The contents of the second can then are added back to the original container gradually, with constant stirring.

To complete the mixing under this method, the paint is then "boxed"—that is it is poured back and forth from one can to the other until it is uniformly smooth. If old paint has been used, and there are particles of skin undissolved in the mixture by this time, they can be removed by straining through a small mesh wire or cheese cloth.

Incidentally, there is another little painting trick that can be of considerable help to the amateur—a trick long employed by professionals. Instead of removing excess paint on each brushful by rubbing the brush across the edge of the can, the brush is patted gently on the inside of the container. This helps prevent paint from running down the face of the brush. It means that more paint is patted into the brush so that more surface can be covered between brush-dips, and it prevents the unsightly and annoying trickles of paint which otherwise run down the outside of the can.

## EMPLOYERS MUST OBTAIN NEW UNEMPLOYMENT INSURANCE BOOKS

All 1946-47 Unemployment Insurance Books expired on March 31st, 1947.

New books will be issued by the National Employment Offices to employers, but only when old books are completed and turned in to the Office.

Employers are urged to exchange Unemployment Insurance Books immediately.

Penalties are provided for failure to comply.

## Unemployment Insurance Commission

U.I.C.-1-W

Any painter will tell you that good paint is the cheapest paint. Good paint covers better, keeps its fresh beauty longer — and costs no more to apply than inferior paint.

Yes, it pays to use C-I-L PAINTS. You can depend upon them for the long and colourful life, the sturdy resistance to wear and weather, which mean true paint economy. Before you paint, whether a chair, a room or a house —

The nutritional values contained in whole grain cereals and whole wheat bread are vital to health, it is emphasized by Miss Margaret E. Smith, Director of the Health League of Canada's Nutrition Division.

These whole wheat products, she says, contain liberal quantities of energy-producing starches, most of the important "B" vitamins, some necessary minerals, and a fair amount of protein to supplement that obtained from animal products.

Miss Smith points out that most of the minerals and vitamins are present in the bran layer and germ of the grain kernel. She says that in the milling of ordinary white flour and processed and white cereals, the bran and the germ are removed.

She advises use of liberal quantities of rolled oats, oatmeal, rolled and cracked wheat, wheat germ, shredded wheat, graham and whole wheat bread, also rye and barley bread, and brown rice.

### TERRIER DID NOT LACK FOR FRIENDS

Five hundred persons telephoned police and the city dog catcher, in Kingston, Ont., and as a result a black and white terrier had a reputation from a death sentence.

The terrier was facing death in the gas chamber of the city pound because no one had claimed him. The dog's picture was published in the

newspaper. The telephone calls followed, 300 to the dog catcher, and 200 to the police. All those calling offered to pay the \$2 pound fee to save the dog. Later the dog's owner claimed him, paid the pound fee and took him home.

The custom of serving cranberry sauce originated in New England.

## OUR COMPLETE SHORT STORY

## THE IRASCIBLE DARLING

By NICHOLAS P. KUSHITA

GENERALLY Paul Brown was pictured as an irascible man with the customary vile temper. The graying hair to match his age and furrowed brows cutting deeply into his forehead gave him a forbidding appearance. It was known at times his anger would move him to such rage that he virtually quivered. Now the picture was altogether different and he sat back in a comfortable chair and let his age creep over his body in a nice relaxed position.

A smile lit up Paul Brown's face and he chuckled silently in the dark of his living room.

On the veranda, sitting on the swing, his daughter Hilda turned toward her fiancé and said, "He is an irascible darling," and Paul Brown knew they were talking about him.

He didn't mean to eavesdrop but sometimes eavesdropping did one some good. Paul Brown had been so intent on gathering up the loose ends of his father's business that he had gone on and made a fortune out of a near bankrupt estate. That was a pretty hard thing to do but he had done it by applying himself diligently and never forgetting once that he had to make a comfortable life for his family. But then Martha, his wife, had died and he had withdrawn into himself. Only his daughter's plans for an elopement had roused him from his forgetting world and made him realize what an ogre he had been, especially about Hilda and her young man.

One week to the day he had been sitting there dreaming away when he heard Hilda making her plans with that young Jack Farnam.

"Who on earth would give me a job paying enough to give us a living like you've been accustomed to?" Jack had demanded indignantly, when Hilda had uttered her impatience at the delay in their plans.

"I could live as comfortably on nothing if I could be with you, and that is all I really care for," Hilda had replied biding her lips to keep back the tears.

"No," Jack had answered firmly. "No. I don't want to discuss this anymore, Hilda. Not until I have a decent job."

There had been words and Hilda had stormily left and gone up to her room. Jack Farnam had turned and walked down the steps, his hands in his pockets and his shoulders slouched down.

Paul Brown had been wakened from his dreams by these youthful outbursts. A nice young man, too. He

could give him a job but after all young people ought to make their own way in this world and not have to rely on in-laws all the time for money and jobs. Why, he had gone out on his own and did right well. He guessed anyone could if he could.

Unfortunately the next night Paul Brown couldn't sleep and went downstairs to his favorite chair. He could hear the young folks on the porch again but Jack's voice had certainly changed, seemed a lot huskier. After a while he realized that it wasn't Jack on the porch with Hilda.

"I can't bear it at home," Hilda was saying. "I can't take it any longer. Take me away."

The hushed voices couldn't be heard but Paul Brown grasped quickly enough the intent of those words and crept closer to the window to hear plainly what those almost mute voices were planning. He heard all about an "elopement tonight."

His first impulse was to burst upon the young people on the porch and pound some sense into their heads but then that would be all wrong. There was only one thing he could do. That was to get Jack Farnam and put a stop to this nonsense. His daughter was planning.

Warmly clothed he met Jack Farnam in the bushes in front of the house. "Hilda's going to elope," he gasped.

"I thought you said she was dying," Jack accused. "We're through, you know. If she wants to elope let her go ahead. It's none of my business."

"I thought you wanted to marry her."

"I do," Jack protested, "but I haven't a decent job. Mr. Brown, I need a job. I need a job to support your business and all that, but I am not a relative and I know just what you need in your engineering department. Your production methods are old-fashioned now and if you would put in a conveyor belt on the style I've designed you would be making more money than you would know what to do with. It would pay for itself in a short time."

"This is a fine time to be talking about a job when my daughter is about to run away!" Mr. Brown sneezed. "Blasted hayfever!" He was seized with a violent fit of sneezing.

Jack Farnam shook the old man. "There's Hilda on the porch with a bag," he whispered. "There's a man coming up the road and there are the headlights of his car down where he's coming from."

"Get him!" and Paul Brown collapsed in a fit of sneezes. The shouts and the commotion frightened Hilda and she ran back into the house. The fellow turned and ran back to his car and drove away.

"He's gone," Jack told the old man. "Come on."

"See the engineer tomorrow and he'll see what you've got to offer. This isn't a guarantee of anything." Still sneezing, he went into the house.

The next evening Jack Farnam called on Hilda and they had made their plans. Jack had gotten the job and the engineer was very pleased to have him in the department.

"Ahem!" Paul Brown got up and

could give him a job but after all young people ought to make their own way in this world and not have to rely on in-laws all the time for money and jobs. Why, he had gone out on his own and did right well. He guessed anyone could if he could.

"Ahem!" Paul Brown got up and

A BOY AND HIS PAL. — Young "Timmy" is a 9-year-old crippled child who has been greatly helped through medical and orthopedic aids by the Society for Crippled Children.

went onto the porch. "I could hear every word you were saying. Jack's a fine man, Hilda. Fine man. That sounded you had here last night!" He started to turn livid. "Eloping one night and marrying another man the next!"

"I'm glad Jack was there to help you. It got him a job and everything's fine now. We're going to be married in a very short while."

"But," her father protested, "who was that fellow you were going to elope with?"

"Oh, that," Hilda laughed until the tears ran. "That was Jack's older brother."

"Hmph!" Paul Brown turned into the house.

"He's such an irascible darling," Hilda told Jack.

By ANNE ADAMS

### Could Be Easier

See the bodice? That's ONE piece! The skirt? That's ONE piece too! Pattern 4823 has no sleeves or collar to set, no side skirt or shoulder seams to sew. Magic!

This pattern, easy to use, simple to sew, is tested for fit. Includes complete illustrated instructions. Pattern 4823 comes in sizes 12, 14, 16, 18, 20. Size 16 takes 3 yards 30-inch fabric.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anna Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man.

Where's A Will, There's A Way!

WINNIPEG.—Unwary visitors usually rub their eyes in amazement but nevertheless it's true—250 chickens on the farm of Sam Battaglia in suburban Winnipeg are wearing spectacles.

It isn't because of their eyesight either. Their owner found he was losing about one chicken a day because the minute a blood speck appeared on one the others would peck it to death. But with red glasses, made by a poultry firm, everything looks red to the pugnacious wild Leghorns and after pecking at floors and walls of their houses, roosts and other quarters, the birds grew discouraged and gave up the practice.

One copy of every book printed in England must be presented to certain libraries free of charge.

With a substantial increase in sales offsetting to some extent increased cost of materials and labour, Gypsum Lime and Alabaster, Canada, Limited reports for year ended November 30, 1946, net earnings before taxes of \$1,356,970.47 or \$3.08 per share. Tax requirements amounted to \$775,000.00 or \$1.76 per share, resulting in a net addition to surplus of \$581,970.47 or \$1.32 per share.

Capital expenditures amounted to \$276,648 and refinancing was completed at an appreciable saving in interest charges.

The Directors report that with a continuation of the present activity in the building trades, results for 1947 will compare favourably with 1946.

A dividend of 80 cents per share for 1947 has been declared, payable 20 cents quarterly, the first payment being made on March 1, 1947.

Alberta possesses some 85 per cent. of the coal resources in Canada and 25 per cent. of those of all North and South America.

### Not Biggest Navy But Best-Manned

Britain no longer can hope to have the largest navy in the world, but can have the best-equipped and is certain to have the best-manned, John Dugdale, financial secretary to the Admiralty, told the House of Commons.

Dugdale presented an estimate for an expenditure of £108,700,000 (\$786,800,000) for 1947-48.

He disclosed that the British and Dominion navies had accounted for 4,600 mines during 1946, but had suffered no casualties.

Using Pilotless Planes For Tests

LONDON.— Britain's ministry of civil aviation warned all airlines pilots against using the ocean area off the southwest corner of England for six months because of "faster-than-sound" pilotless plane tests.

A spokesman said the tests will be made in daylight when the pilotless planes will be visible to aircraft.

Scientists hope the planes will reach a speed of more than 800 miles an hour. All tests will be carried out under the guidance of scientists, but the R.A.F. will co-operate in launching the pilotless planes from Mosquito aircraft.

It's not likely that you'll ever get the chance but just the same it would require 19 centuries to spend one billion dollars, at the rate of a dollar a minute.

### There's Plenty In This Baby's Name

TYLER, Texas.— The couple approached the Tyler city manager's office with caution. There had been a bad mistake, they said, in the birth certificate of their new baby.

A secretary dug up the document and reported the child was listed as "Kennard."

"That's wrong," said the father. "What should it be?" asked the secretary.

And without batting an eye, the father wrote—because he couldn't pronounce it—"Euthophis Tylosa."

The mother said she didn't know what it meant, either, but thought it was a fine name.

GERMOLENE IS SO GOOD FOR ULCERS, ECZEMA, PILES!

GERMOLENE is famous for helping to clear up pimples, rashes, and similar skin conditions. Try it. See how fast this simple ointment soothes and heals. Buy GERMOLENE today, without fail.

### LIGHT-MAKER LAMPS

Good light no matter where you live. For over 30 years Coleman Lamps have been bringing better light—more light at less cost—into homes everywhere.

A Coleman Lamp gives more light than 20 old style oil lamps. Its clean, white brilliance is ideal for reading or sewing. You can match colors accurately by its abundant light. Children, too, need this good light to study by.

It's portable. Carry it from room to room. Burns 12 to 14 hours on one filling. No wicks to trim. No smoked-up chimneys. No daily filling.

Its brilliant light, its beautiful design and finish make your home more attractive, brighter and more cheerful.

Coleman Lamps are available now. They give you so much light at so little cost, why not enjoy all the light you need? Ask at your hardware or general store about them.

THE COLEMAN LAMP AND STOVE CO., LTD. TORONTO, CANADA

## PARKER HOUSE Rolls

### Better Bake Plenty

Add 1 envelope Royal Fast Rising Dry Yeast and 1 tsp. sugar to 1 c. lukewarm water. Stir; let stand 10 min. Add 1 c. milk, add 5 tbs. sugar; add 2 tsp. salt, cool to lukewarm. Add to yeast mixture. Add 3 c. sifted flour, beat until perfectly smooth. Add 4 tbs. melted shortening and 3 c. more sifted flour, or enough to make easily handled dough. Knead well. Place in greased bowl. Cover; let rise in warm place until doubled in bulk, about 1½ hours. Punch dough down in bowl; let rise again in warm place until nearly doubled in bulk, about 40 min. When light, roll out ¼" thick. Brush over lightly with melted shortening. Cut with 2" biscuit cutter, crease through center heavily with dull edge of knife, fold over in pocketbook shape. Place on well-greased shallow pan 1" apart. Cover; let rise until light, about 1 hour. Bake in 400°F. oven about 15 minutes.

# GIRLS! WOMEN! TRY THIS IF YOU'RE NERVOUS, CRANKY, TIRED-OUT

On "CERTAIN DAYS" of the Month!

Do female functional monthly disturbances make you feel nervous, jittery, cranky, so tired and "dragged out"—at such times? Then do try Lydia E. Pinkham's

Vegetable Compound to relieve such symptoms. This fine medicine is effective for this purpose.

For over 70 years thousands of girls and women have reported benefit. Just see if you, too, don't report excellent results! Worth trying.

## BRITAIN TO BUILD

"PEOPLES CAR"

A new Morris' car is now being  
built for home and overseas which  
will be the first "Peoples Car" for  
Britain. It is a four-seater saloon  
capable of 60 miles per hour and will  
do 60 miles to a gallon. Sir Miles  
Thomas of the Nuffield group (manu-  
facturers of the Morris) has  
stated that his company already has  
overseas orders worth \$48,000,000.

## DANGER SIGNALS

Twinges, or just plain tiredness,  
may be danger signals of illness  
ahead, say the doctors. "Take care of  
the little aches and the big pains  
will look after themselves," they de-  
clare. One of the essentials for com-  
plete and speedy relief from illness  
is early discovery of underlying  
causes of a complaint. So minor dis-  
comforts should not be ignored or al-  
lowed to pass unexplained. See a doc-  
tor for even the little things, and  
forestall development of more serious  
trouble.

**Don Graham**  
**Comments**  
**on**  
**EVERYBODY'S**  
**BUSINESS**

I never stop wondering at the  
remarkable economy and effi-  
ciency set up by the co-opera-  
tion of millions of individuals in  
life insurance.

Government figures on the  
Canadian companies show that 75¢ of every dollar re-  
ceived by these life insurance  
companies came from policy-  
holders' premiums; 24 1/2¢  
from investments and 1/2¢  
from sundry sources.

But the amazing thing to  
me is that for every dollar  
received by the companies  
84¢ was paid to or held for  
policyholders; 2¢ went to  
governments for taxes; 13 1/4¢  
covered all operating ex-  
penses; and 1/4¢ went to share-  
holders. No wonder that peo-  
ple in 64 other countries buy  
Canadian life insurance, be-  
cause it is so well managed.

Life insurance is a business built for  
overhead, a great machine which  
protects the future of more than four  
million policyholders and their loved  
ones. Life insurance offers a system-  
atic and easy way to save. Consult  
an authorized agent about a plan  
best suited to your requirements.

# IMPORTANT GOVERNMENT NOTICE Respecting Price Control

The following is a convenient summary of Board Order No. 711—published for  
the guidance and protection of Canadian consumers. It does not give the full  
legal text. For full details of the law reference should be made to the Order.

CLIP THIS AND KEEP FOR EASY REFERENCE

## Summary of GOODS AND SERVICES REMAINING SUBJECT TO MAXIMUM PRICE REGULATIONS

As set forth in Wartime Prices & Trade Board Order No. 711—effective April 2, 1947

### FOODS

- All flours, flour mixes and meals.
- Yeast.
- Bread, bread rolls, and bakery products.
- Biscuits, except those completely covered with chocolate.
- Processed cereals, cooked or uncooked, including breakfast cereals, macaroni, vermicelli, spaghetti, noodles and other alimentary paste products.
- Rice, excepting wild rice.
- Pot and pearl barley.
- Shelled corn, but not including popping corn.
- Dried peas, soya beans, dried beans except lima beans and red kidney beans.
- Starch.
- Sugar, sugar cane syrup, corn syrup, grape sugar, glucose.
- Edible molasses.
- Honey.
- Tea, coffee, coffee concentrates.
- Malt, malt extract, malt syrup.
- Black pepper and white pepper, and substitutes containing black or white pepper.
- Butter.
- Casein.
- Cheddar cheese, processed cheese and cream cheese.
- Concentrated milk products of all kinds.
- Ice cream.
- Salad and cooking oils.
- Salt.
- Fresh apples — 1946 crop.
- Raisins, currants, prunes, dried dates, dehydrated apples.
- Tomatoes, tomato sauce, tomato paste, tomato pulp, tomato puree, tomato catsup, chili sauce, when in hermetically sealed cans or glass.
- Canned pork and beans, canned spaghetti and canned soups.
- Canned corn, canned peas, canned beans including the lima and red kidney varieties.
- Canned apricots, canned peaches, canned pears, canned cherries, canned plums.
- Fruits and vegetables in the two preceding items when frozen and sold in consumer size packages.
- Jams, jellies, marmalades.
- Meat and meat products, not including game, pet foods, and certain varieties of cooked and canned meats.
- Sausage casings, animal and artificial.
- Live, dressed and canned poultry (but not including turkeys, geese or ducks, live, dressed or processed; poultry spreads, poultry stews and poultry in pastry or pie crust).
- Canned salmon, canned sea trout, canned pilchards of the 1946 or earlier packs.
- Edible animal and vegetable fats including lard and shortenings.

### CLOTHING

- Men's, youths' and boys' coats, jackets and wind-

### breakers made wholly or

- Men's, youths' and boys' suits or pants made wholly or chiefly of cotton or rayon.
- Men's, youths' and boys' furnishings as follows:—blouses, collars, pyjamas; nightshirts; underwear, other than that made wholly of wool; dressing gowns, other than those made wholly of all-wool fabric; shirts, including sport shirts other than those made wholly of all-wool or all-rayon fabric.
- Women's, misses', girls', children's and infants' garments of all kinds (but not including:—(a) garments made wholly of all-wool fabric; (b) raincoats, or (c) jackets and windbreakers, except when made wholly or chiefly of leather).
- Women's, misses', girls' and children's accessories as follows:—tickies, bibs, halters, neckwear, collars, cuffs and aprons.
- Knitted wear for either sex as follows:—undergarments, other than those made wholly of wool; circular knit hosiery of cotton or rayon.
- Work clothing, including aprons for either sex, when made wholly or chiefly of cotton or leather.
- Uniforms for either sex.
- Gloves, gauntlets and mitts for either sex when made wholly or chiefly of cotton or leather, except those designed as specialized sports equipment or for specialized industrial uses.
- Brassieres; foundation garments, but not including surgical corsets.
- Diapers and diaper supports.

### HOUSEHOLD AND OTHER TEXTILES

- Textile products as follows, when made wholly or chiefly of cotton or rayon: bath mats, bedspreads, blankets except horseblankets, curtains, dishcloths, dish towels, drapes, face cloths, luncheon cloths, napkins, pillow cases, sheets, slippers, table cloths, throw-overs, toilet seat covers, towels, wash cloths, window blinds, window shades.
- Floor rugs and mats chiefly of cotton.

### DOMESTIC FUELS

- Coal, coke and briquettes; until April 16th, 1947.

### HOUSEHOLD EQUIPMENT AND SUPPLIES

- Furnaces, fire-place heaters and other heating equipment except portable electric heaters.
- Jacket heaters and other water heating equipment.
- Soap and soap compounds.

### MOTOR VEHICLE ACCESSORIES

- Pneumatic tires and tubes when sold for the purpose of or as original equipment on agricultural machinery.

### CONSTRUCTION PRODUCTS

- Lumber of all kinds.
- Millwork such as doors, sashes, windows, stairs and gates.
- Plywood and veneers.
- Pre-cut lumber products designed for use in residential or farm buildings, but not including fully pre-fabricated construction.
- Gypsum board and gypsum lath.
- Wallboards and building boards.
- Cast iron soil pipe and fittings.
- Nails.

### AGRICULTURAL MACHINERY, IMPLEMENTS, EQUIPMENT AND SUPPLIES

- Practically all items of farm machinery, including planting, seeding and fertilizing equipment, plows, tillage implements and cultivators, haying machinery, harvesting machinery, tractors, wagons, dairy machines and equipment, sprayers and dispersers.
- Articles of barn and barnyard equipment.
- Incubators, brooders, poultry feeding and watering equipment.
- Stationary gas engines.
- Harness and harness hardware.
- Barbed wire and other fencing wire and fences.
- Binder twine.
- Wheelbarrows.
- Feeds and feed products of all kinds except horse meat, pet foods, straw, clam shell and poultry grit.
- Fertilizers of all kinds, but not including humus, muck, manure, sphagnum moss or peat moss.
- Gopher poisons.
- Seed beans and seed peas.
- Grains as follows:—wheat; barley; oats; flaxseed; buckwheat; rye; sorghum; sunflower seed; grain screenings.

### RAW AND PROCESSED MATERIALS

- Basic iron and steel products and alloys, including pig iron, cast iron, scrap, ingots, bars, plate, rods and wire.
- Primary, secondary and fabricated mill forms of the following non-ferrous metals and their alloys: copper, lead, tin and zinc.
- All tins and oils, including Vitamin A oils, of animal, vegetable or marine origin but not including refined medicinal cod liver oil.
- Glue stock, glues and adhesives of animal origin.
- Starches.
- Fibres, raw or processed, as follows: cotton, hemp, jute, sisal, all synthetic fibres and filaments excepting glass.
- Yarns and threads of, or containing any of the fibres listed above.
- Fabrics, over 12 inches in width whether knitted or woven or containing any of the yarns and threads referred to above.

- Sewing, embroidery and croch-yarns, threads and floss of any of the yarns and threads referred to above.
- Bobbinet, dress and curtain nets and netting.
- Elastic yarns, fabrics and webbing.
- Hides and skins from animals of a type ordinarily processed for use as a leather.
- Leathers and synthetic leathers of all kinds.
- Sheepskin shearings, tanned, but not further processed than combed or sheared and coloured on the flesh side.

### PULP AND PAPER

- Waste paper.
- Wood pulp, except:—(a) dissolving grades, (b) "alpha" grades of bleached sulphate, (c) "Durocell", (d) groundwood and unbleached sulphate grades sold for the manufacture of newsprint or hanging paper.
- Newsprint paper except when sold by manufacturers thereof.
- Paper board, used in the manufacture of solid fibre or corrugated shipping cases.
- Boxboard grades of paper-board, except for wrapping newsprint paper or making newsprint cores.

### CONTAINERS AND PACKAGING MATERIALS

- Containers, packaging and wrapping devices of a type used for the sale or shipment of products, when made from a textile fabric and including bags, cases, envelopes, folders and sacks.

### SERVICES

- Transportation of goods and services associated therewith.
- Warehousing; dry storage of general merchandise and household goods other than wearing apparel; cold storage, including rental of lockers and ancillary services such as processing charges in cold storage plants.
- Supplying of meals or refreshments for consumption on the seller's premises, the supplying of beverages (except alcoholic beverages) by purveyors of meals or refreshments; the supplying of meals with sleeping accommodation for a combined charge, but not including the supplying of meals, refreshments or sleeping accommodation by an employer to his employees, directly or through a servant or agent.
- The packing or packaging or any other manufacturing process in respect of any goods subject to maximum prices, when performed on a custom or commission basis.

### USED GOODS

- Used bags and used bagging and baling material.

DONALD GORDON, Chairman,  
Wartime Prices and Trade Board.

THE WARTIME PRICES AND TRADE BOARD

## *Something OR Nothing*

Remember the story of the monkey who tried to  
withdraw a fistful of nuts through the narrow neck of a jar?  
Because he wasn't content with getting one luscious nut at a time,  
he ended up by getting nothing instead of something.

That story is worth remembering today. Greedy grabbing  
of goods still in short supply can have the same result—  
nothing instead of something. Inflated prices, like the  
inflated paw of the monkey, can as surely prevent each  
of us from getting his fair share of available goods.

Canadians have had the wisdom to be content with  
a moderate "something," knowing that as production  
increases that "something" will grow larger and larger.

This is good sense, and is founded on the principle that  
MODERATION is the key to CONTINUED ENJOYMENT,  
a principle to which the House of Seagram  
has always subscribed.

*Men who Think of Tomorrow*

*Practice Moderation Today!*

Flavoring Extracts

## The Cost Of Living

WARS ARE ALWAYS ACCOMPANIED by economic disturbances which result from the inevitable disorganization of production at such times. During the recent war, more was known of the economic hazards than had ever been known before, and some countries endeavored, by careful planning, to lessen these hazards. Canadians are all familiar with the price and wage controls which were put into effect during the war, and they are also familiar with the fact that Canada's wartime economic controls were regarded as the most effective of those devised for any country. In spite of these controls, however, the cost of living has increased since 1939. Recent figures issued by the International Labor Office showed that since 1937 prices in Canada have risen by 56 per cent. This figure applies to the general price level, the increase in the price of food was given as 42 per cent.

### Sharp Increases Felt Elsewhere

While these increases are not insignificant and have been felt sharply by many consumers it has been generally realized that we have been more fortunate here than people in many other parts of the world. This fact is borne out by the International Labor Office report, which gave the percentage by which prices had risen in other countries. In the United States, the report shows, the price level has risen since 1937 by 48 per cent, and the advance in food prices there is given as 75 per cent. In Japan, food prices are now sixty-four times what they were in 1937, while in France they are nine times what they were before the war. In Italy food costs nineteen times as much as it was in the pre-war years, while in the Netherlands the increase is given as 101 per cent.

### Canadians Have Been Fortunate

Within the British Empire, we learn that in Australia prices have gone up by 47 per cent, while in South Africa they have increased 49 per cent. In Britain, general price levels advanced 32 per cent, food going up 51 per cent. These figures show that in spite of the rise in prices here, Canadians have been among the most fortunate people in the world in this respect. Price increases are due largely to the fact that sufficient goods are not being produced to meet the consumers' demands. It is expected that in this country these two factors will soon be balanced, and when they are, prices will tend to return to normal levels. If prices do not rise unduly before that time Canadians may consider that they have done well, indeed, to come through a most trying period, during which there was a constant danger of economic disaster, with a minimum of difficulty.

### Home Enlivened By Singing Mouse

**SOUTH LANCASTER, Mass.**—Mrs. Ruel Edmister has a mouse—a singing mouse that sits on a kitchen radiator and trills merrily, that eats peanut butter from a knife and even poses for pictures.

She doesn't know just how to account for it but says the animal started its singing career last fall after she found it in a box of popcorn. The mouse has been around ever since and usually comes out at night to do its singing.

His favorite place is on the radiator.

### LEARN HAIRDRESSING

### PSYCHOLOGIST SAYS SPRING FEVER REAL

Spring fever—sure there is such a thing, says a Boston university psychologist.

And Prof. W. K. Pinard maintains it's all for the good, too.

With the advent of spring today, he insists, if you don't feel that urge to make whoopee "you're probably half dead; there's something radically wrong with you."

And, within the bounds of propriety and decency, he suggests you let yourself go.

That's why feeling that grips some folks at this time is purely biological, with the change to warm weather.

But spring fever—well, he says, that's the "creative urge" we all should feel at this time.

"Spring fever," he says, "is that urge to skip like a lamb; an urge to sing, laugh, play and love."

Prof. Pinard warns against trying to repress these "urges."

"To put life in a straitjacket," he says, "makes for not only individual mental disorders but also makes for social ills."

It's got to burst out somewhere, he says, and if it's repressed it usually bursts out "somewhere destructively."

Society would be wise to loosen the base of propriety and to create more opportunity where, with a certain amount of control and decency there would be more opportunity to manifest spring fever.

**NEW QUEEN OF PARIS**—Chosen "queen" of Paris, Françoise Foucault, 20, seen here, is a secretary in private life. Each district of the French capital elected its own queen, from among whom Françoise was selected during a ball of the Parisian press.

### FUNNY And OTHERWISE

Policeman (to a gentleman staggering home at 3 a.m.): "Where are you going at this time of the night?"

Drunk: "To a lecture."

"Of course," said the lecturer, turning to the chairman of the meeting, "you all know what the inside of a corpse looks like."

"I guess most of us do," said the chairman, "but you'd better explain for those that haven't been inside one."

An inmate of an asylum who was pushing a wheelbarrow upside down was stopped by a visitor who asked: "What's the idea?"

"I'm not crazy," was the retort. "Yesterday they filled it with bricks."

"What are you doing?" asked the convict of the reporter.

"I'm taking notes."

Humph! That's what brought me here.

Teacher: "What makes you so late this morning?"

Pupil: "You see, sir, there are eight in our family."

Teacher: "Well?"

Pupil: "And the alarm was set for seven."

My young nephew, Roland, went into a shop a couple of days ago and said: "I want to buy a collar for my father."

"What style?"

"One like mine, sonny?"

"No, I want a clean one."

With great interest the six-year-old watched her mother pour asphalt over the jelly.

Then she went to answer the doorbell and explained her mother was too busy to come to the door.

"She's weatherstripping the jelly, she said."

"Bill's going to sue the company for damages."

"Why, what did they do to him?"

"They blew the dinner whistle when he was carrying a 'cav' piece of iron, and he dropped it on 'is foot.'"

**SHANGHAI PRODIGY IN NEW YORK**—Policeman directs George Vlachos and his sisters Madeleine and Sophie, on their New York visit. George, youthful pianist and composer from Shanghai, is on tour.

### SELECTED RECIPES

#### EASY ITALIAN SPAGHETTI

1 pound ground beef or sausage  
1 cup thinly sliced onions  
1/2 cup green pepper, cut in thin strips  
1 1/2 cups beef broth or 1 1/2 cups water and 2 bouillon cubes  
1 cup thick tomato sauce or tomato paste  
1 teaspoon salt  
Dash of cayenne  
1 teaspoon Worcestershire sauce  
1/2 cup grated cheese  
1 1/2 teaspoons vinegar  
5 cups seasoned cooked spaghetti  
Separate meat into small pieces with fork and season lightly with salt and pepper. Place in hot skillet and heat until red color just disappears, tossing with fork. Remove meat, leaving drippings in skillet. Add onions and green pepper to drippings, cover, and cook gently 5 minutes. (Add more fat if necessary.) Then add meat, broth, tomato sauce, seasonings, cheese, and vinegar. Simmer gently 10 minutes. Add spaghetti and reheated.

Serve hot. Sprinkle each serving with additional cheese. Makes 6 to 8 servings.

To cook spaghetti, drop 9 ounces broken spaghetti into large amount of boiling salted water. Lift or stir with fork frequently to prevent sticking to pan. Boil until just tender. Drain and season with salt and pepper.

#### CHOCOLATE CHIP KISSES

2 egg whites  
1/2 teaspoon salt  
1/2 teaspoon cream of tartar  
1/2 cup sugar  
1 package semi-sweet chocolate chips  
1/2 teaspoon vanilla  
Beat egg whites until foamy throughout; then add salt and cream of tartar and continue beating until eggs are stiff enough to hold up in peaks, but not dry. Add sugar, 2 tablespoons at a time, beating thoroughly after each addition. Fold in chocolate chips and vanilla. Drop from teaspoon on ungreased heavy paper. Bake in slow oven (300 deg. F.) 25 minutes, or until done. Remove from paper while slightly warm using a spatula. Makes about 20 chocolate kisses. May be varied by adding other ingredients and flavors.

"My husband is an efficiency expert in a large office."

"What does an efficiency expert do?"

"Well, if we women did it, they'd call it nagging."

### HEAT OF SUN IS NOT LESSENING

**OTTAWA.**—Contrary to previous theories that the heat of the sun is gradually lessening, J. Dainty, member of the British Atomic Energy project, since its inception in 1940, told an audience of 100 members of the Royal Astronomical Society of Canada (Ottawa Centre) the sun tends to get hotter and when it does reach a certain peak, the heat will gradually lessen.

But this, the speaker said, will come about in the very distant future.

Mr. Dainty discussed the theory of evolution of stars following the theories of Professor H. Norris Russell, of Princeton University, Princeton, N.J.

### MUST BE GOOD FOOD

Mushrooms contain 80 per cent. water, 4 per cent. protein, some iron, copper, calcium, phosphorus, potassium, riboflavin, nicotine and pantothenic acids, vitamins B<sub>1</sub>, C and K.

## Many Brides May Be Left In Britain Owing To June 30 Deadline For Transportation

OTTAWA.—The Order-in-Council providing transportation to the Dominion at Government expense for British brides and children of Canadian servicemen expires June 30 and will not be renewed, the Ottawa Journal was informed by a senior executive of the Immigration Branch of the Mines and Resources Department.

"The order automatically dies June 30 and that will be the end of it," said the department.

At the same time, the Veterans Affairs Department estimated currently there were between 4,500 and 5,000 "family units" of Canadian servicemen still in Britain.

A "family unit," it was explained, might be a childless bride or a wife with one or several children; and on that basis it was difficult to estimate the total number of dependents of Canadians still abroad.

Of the 4,500 to 5,000 war brides in Britain, the department disclosed, "some" did not wish to come to Canada, and the husbands of "a few" were not anxious to have them brought to the Dominion.

In such cases—and they were not many—social service workers in Canada assisted by an agent of the Veterans Affairs Department assigned to them, were trying to work out family adjustments.

Many British brides and their children, it was reported, have delayed their journey to their new homes in Canada because their husbands still lacked jobs good enough to support a family, or had been unable to find adequate housing accommodation.

It seemed almost certain, The Journal was informed, that many of the 4,500 to 5,000 brides and their children still in Britain would be unable to meet the June 30 deadline for the Government-paid passages to Canada.

So far, free transportation to Canada has been provided 31,545 brides and 15,918 children of Canadian servicemen.

From Britain came 29,412 brides and 10,592 children; from Hong Kong, 1,477 brides and 226 children; from Belgium, 529 brides and 79 children; from France, 67 brides and five children, and from "other" countries 60 brides and 18 children.

## CONTROL FIRES—SAVE THE BIRDS

Spring is here, at least we hope so. More snow means more sloughs and ponds and more birds nesting around them. Birds are pouring into their native land. Nesting starts in right after they arrive. Prairie Horned Larks will have young nests before the last of the snow disappears. Meadowlarks, Killdeer, Mallards, Pintails, Canada Geese—all ground nesting birds, will be incubating eggs before the first of May.

If you have any stubble or hayland burning to do, give a thought to the birds and get it done before April 15—the sooner the better. If at all possible, do not delay burning beyond April 15.

Control the burning. See that it does not destroy good nesting cover or wood lots, or run wild into marsh lands. Birds require food and cover as well as water.

Birds take about one week to select and prepare the nest site. They lay an egg a day until the clutch is complete. Not until then do they start to set the eggs. At least three weeks' preparation has gone into the home site before incubation even starts. That is why burning should be done before April 15, or not at all. Interruption of the reproductive cycle in its early stages is not nearly as serious a matter as when the eggs have been laid and incubation begun. These birds eat thousands of insects. They head off destructive outbreaks. The farmer has no better friends.

So give the birds a break and do your burning—where necessary—before nesting starts.

Fire is a good servant—a terrible master.

Yours for more birds—fewer insects—better farm crops—happier communities. —B. W. Cartwright, Chief Naturalist, Ducks Unlimited.

## Urge All Nations Have Voice in Peace Drafting

MOSCOW.—Secretary of State Marshall urged in the foreign ministers' council that all countries which shared war on Germany participate in the final peace settlement.

The Marshall recommendation was made as the four big powers took up discussion of procedure for the German peace conference.

Foreign Minister Molotov urged that Albania and Iran be included among the members of the consultative and information conference which would assist in drafting a preliminary treaty. The question of participation of these two countries was referred to the ministers' deputies.

Marshall proposed that the foreign ministers conference, with China, Italy and a peace conference of all states which had been at war with Germany and that all have full and equal rights.

Marshall also urged that, after the peace conference, the foreign ministers draft a final treaty for Germany, considering as top priority all recommendations passed by a two-thirds vote of the conference. He asked that note be taken of all other recommendations passed by a majority vote.

The American secretary said he did not believe any German government should be saddled with the onus of signing a treaty and that the constitution to be adopted by the Germans should contain a clause which would commit the Germans to live up to the terms of the treaty.

This, he said, would let the whole matter be passed on by the German people.

Foreign Minister Bidault of France supported the American view, but Foreign Secretary Bevin of Britain said he doubted the legality of such a clause.

Molotov said he would have to consider the Marshall proposal.

Bevin also urged the participation of all powers which had been at war with Germany.

## HELGOLAND IS TO BE DESTROYED

LONDON.—Helgoland, former island bastion of the German navy, will be blown up by the Royal Navy and R.A.F. this month. Bomber squadrons will make a series of night raids on Helgoland after a naval officer electrically detonates 7,000 tons of high explosives April 18 to destroy the island's food stock, deep munitions, U-boat and gun emplacements.

## New Prices Board Chairman

KENNETH W. TAYLOR

Recently appointed Senior Deputy Chairman, Mr. Taylor will assume the duties of Chairman of the War-time Prices and Trade Board upon the resignation of Donald Gordon, April 15, 1947. It has been announced.

Mr. Taylor was born in Takung, K. China, on December 12, 1899, the son of a Canadian missionary parent. He received his early education there and came to Canada at the age of 16. During the First World War he served overseas with the Canadian Field Artillery from 1917-1919. He spent some time in England after the war, then returned to Canada and entered McMaster University, receiving his B.A. degree from there in 1921. In 1922, he qualified for his M.A. at the University of Chicago.

Beginning his career in 1925, Mr. Taylor was appointed a university lecturer of Political Economy at McMaster University. In 1928 he was named Assistant Professor and from 1928 to 1935 served as Associate Professor. In 1935 he was made Dean of Arts and Professor of Political Economy at McMaster. He held these positions until the summer of 1946 when he resigned to become Special Economic Advisor to the Department of Finance, from where he is now on loan to the War-time Prices and Trade Board.

Shortly after the outbreak of the Second Great War, Mr. Taylor obtained leave of absence from McMaster University to become Secretary of the newly-created Prices

Board. He was one of the Board's first members joining it the first week of its inception in 1939. He was appointed Co-ordinator of the Food Administration in February, 1943, and was elevated to his present post of Senior Deputy Chairman last October. Mr. Taylor was married in 1939, has three children and at present resides in Ottawa with his family.

## GERMANY TO HAVE PENICILLIN PLANT

BERLIN.—Construction of the finest and most up-to-date penicillin plant in continental Europe is scheduled to begin at once at an undisclosed site in the United States occupational zone of Germany under United States military government supervision.

The plant, which is to be built and equipped entirely with materials and machinery taken from German industry will, when complete, have a monthly production capacity of 200,000,000,000 Oxford units.

That amount of penicillin will be able to provide for the entire population of both British and American zones, says T. A. Rude, chief of the chemical section of military government's economic branch who is in charge of the project. Enough penicillin will be left over for export to pay for all expenses connected with the building and running of the plant.

## Predicts Shipping Trade This Year On Great Lakes To Be The Busiest In History

### RUSSIA READY TO GIVE UP DAIREN

WASHINGTON.—Russia has notified the United States that she is ready to take "appropriate steps" to carry out an agreement to give China control of the Manchurian port of Dairen, the state department announced.

The Soviet notification was in response to a United States note to Moscow and Nanking expressing hope that the "current unsatisfactory situation" at Dairen could be settled soon.

The Russian reply was dated Feb. 27. Dairen has been under Soviet military control since the Russians moved into Manchuria in the closing days of the war with Japan.

### RECOVERY SEEN IN BRITISH INDUSTRY

EDMONTON.—British industries made a "most encouraging" recovery in 1946, and despite setbacks of a severe winter there is no reason why they should not resume their recovery process when immediate difficulties are overcome, Herbert Tout, senior lecturer in economics at the University of Bristol, said in Edmonton.

## To Stimulate House Building--Depreciation Rates Doubled

OTTAWA.—In an effort to stimulate construction of rental housing, the government announced that it will double the rates of depreciation for rental housing projects and their equipment built or acquired between March 31, 1947, and Dec. 31, 1949.

Reconstruction Minister Howe, in the commonsense, said the move recognized that "our supply of new rental housing is proportionately too low and there is a great need for this type of dwelling" and also the fact that "perhaps the principal reason for the reluctance of private owners to enter this field is their belief that present capitalized costs may be high in relation to stabilized rents."

Under the order, a rental property

TORONTO.—Navigation on Canada's great inland chain of waterways is about to open for a season which men in the shipping trade predict will be the busiest in the history of the Great Lakes.

Basis of this prediction is an anticipated heavy movement of grain from the prairie provinces, of iron ore from the Lake Superior ranges for the blast furnaces of steel mills in the United States and pre-season demands for all types of cargo-carrying vessels.

In the ice-bound harbors of Ontario where the big freighters and passenger boats wintered, preliminary preparations move apace toward a reopening of the shipping lanes. Elevator officials at the lakehead cities of Port Arthur and Fort William said they looked for an unusually active year with a steady flow of grain from the west.

A record shipment of 1,000,000 tons of steep rock iron ore—200,000 tons more than last year—is expected to be moved from Port Arthur, Lakehead, railway shipping officials say there now is an accumulation of freight of all classes awaiting shipment east by boat. Movement of this freight was described as "heavier than in war years."

The tug James Whalen has been busy for more than a week breaking ice in Port Arthur harbor.

owner will be entitled to deduct from his income tax return twice as much as he now can for depreciation of his property. Current rates for buildings vary between one and five per cent, depending on the type of structure. In the case of equipment, the rates vary from five to 10 per cent.

On a \$14,000 building, considered apart from any equipment within, an owner could thus chop off as much as \$1,400 a year from his income for tax purposes.

The double depreciation will continue for 10 years on projects consisting of new buildings, including units which meet Central Mortgage and Housing corporation specifications, which rent for less than \$70 a month per unit, which give veterans' preference and have an average of 1.75 bedrooms per unit.

Under questioning by Donald Fleming (P.C.-Toronto Legislature), the minister said the order applied to single houses but if the owner was an occupant of his house it must be a four-family house. In other words, it did not apply to a duplex where the owner was also a tenant. If the owner was not a tenant, it applied to a duplex or any unit.

## HONG KONG WORRY FOR BRITAIN NOW

Large Population Creates Public Services Problem

LONDON.—Hong Kong has created a top colonial problem for Britain because it is too popular.

When Canadians went to the crown colony in 1945 to assist in its defence some 1,500,000 persons lived there. The Japanese occupation lasted almost four years and fewer than 1,000 persons remained when the Allies returned.

Disturbed political conditions elsewhere in China made this British territory attractive to Chinese of all classes and all conditions. They arrived on foot, by train, steamer, small boats. Now the population is about 2,000,000.

E. Crech Jones, colonial secretary, said in the commonsense Hong Kong has posed a problem. The administration there suffered severe strain because of the influx of Chinese.

Jones' study of the problem will be sped by news of heavy deficits being piled up by the island administration. Public services of all kinds, most of them interrupted or damaged during the war, are attempting to service the vast new community. Poverty-stricken Chinese require assistance and wealthy Chinese, paying fantastic rents for the few undamaged houses, have made no contribution through income tax to the cost of maintaining public services.

### HOUSEWIVES' COLLEGE

ABINGDON, Berkshire.—A house and 100-acre estate has been purchased by the National Federation of Women's Institutes as a college for country housewives.

Juneau, the capital of Alaska, only had 53 days of snow were in 33 years, although Alaska usually is thought of as being a cold country.

PRELIMINARY SHOWING OF ONTARIO SPRING FLOODS—Water pouring down 43rd St. in Long Branch, Ont., and cutting behind houses to run into Etobicoke creek, stranded this jeep and its occupants. The water is subsiding slightly in what is reported to be, a "preliminary flood to the real thing."

BRITAIN SUFFERS DISASTROUS FLOODS—Thousands were driven from their homes by mounting English floods and community kitchens were set up to feed the refugees. In Windsor, swamped by the swollen Thames, flood waters here filled High St. Women lined up knee-deep in water to get food. Little of city except Windsor castle, royal residence, remained dry. Floods passed peak set in 1894.

### FORMS NEW CABINET—Socialist

premier of Belgium, Paul Henri Spaak, shown here, announced formation of a new coalition cabinet with the Catholic party, in which he also is said to serve as minister of foreign affairs. The cabinet is composed entirely of Socialists and Catholic party members, the Liberals and Communists having refused to participate in a coalition government. Recently the left-wing coalition cabinet, headed by Socialist Camille Huysmans, resigned in a dispute over its decision to boost coal prices. It included Socialists, Liberals, Communists and three without party affiliation.

### ANOTHER BOOST IN PRICE OF NEWSPRINT

TORONTO.—An increase effective from April 1 of \$4 a ton in the price of newsprint was announced by Abitibi Power and Paper Company, Limited.

The company said it had already notified its customers in Canada and the United States of the increase, which applies to standard weight newsprint paper and rolls. Present basic price is \$80 a ton.

Canadian International Paper Sales company in Montreal also announced a similar increase. When the increases became effective, they pushed prices of newsprint from the two companies to more than double its 1934 figure.

At that time, newsprint sold for \$40 a ton whereas the April 1 price in Montreal and Toronto, regarded as the barometer for Canada, will be \$88.

### Newsprint Shortage

VANCOUVER.—Due to the newsprint shortage the Vancouver Daily Sun announced that it will not publish display advertisements on Mondays and Tuesdays.

**The Western Academy of Music  
ANNOUNCES  
the Opening of Studios  
at the  
OLIVA HALL - BLAIRMORE  
on  
SATURDAY, MAY THIRD, 1947**

- Hawaiian Guitar.
- Orchestration.
- Instruction from beginners stage to finished concert artist.
- All lessons based on piano script.

Those interested in guitar, orchestration and solo work, and not enrolled by the registrar, please come to the studio at the following hours:

Grades 1, 2 & 3 at 9:00 a.m.  
Ages 9, 10 at 10:00 a.m. Ages 11, 12 at 11:00 a.m.  
Ages 13, 14 at 12 noon. Ages 15 & up at 1:00 p.m.

**"This year there's beauty  
in our budget"**

"Look at the difference in Gladys already," said the mother proudly. "She's just brimming with health."

"Yes, this year there's beauty in our budget," said Hugh. "Another six weeks of this will do wonders for you and the youngsters... and long week-ends here for me... it's swell!"

"But it's not really in the budget, Hugh."

"No, it's over and above the budget, certainly, but it's the budget that enables us to take this cottage without worrying. Once we've set aside our year-round expenses and our life insurance premiums, the rest is surplus. We can be extravagant with it. Until I had enough insurance to take care of the future I always felt a bit guilty about spending in the present. But now my mind is at ease. You and Tom and Gladys are protected. So long as we don't dip into what's needed for that, we don't need to worry any more."

When life insurance is properly taken care of in the family budget, present expenditures can be planned with a carefree mind. Future protection is of first importance. Once that is insured, the greatest source of worry is banished from every home.

A message from the Life Insurance Companies in Canada and their agents.

L-344C

**Good Roads  
MEAN MILLIONS  
To Alberta**

The tourist trade is estimated to have brought nine and a half million dollars to Alberta in 1946; about one and a half times the Provincial expenditure on roads (\$6,605,950 est.) for the year.

This tourist income can be multiplied as soon as we provide the kind of all-weather highway system that makes tourist travel easy and pleasant. And we need such roads for our own use and in the interests of our own progress.

The Alberta Government is to be commended on its recently announced outline of a \$9,500,000 highway program for 1947. If this program is carried out and repeated over a period of years, we will have roads worthy of Alberta and worth a great deal more than their cost to us.

**ALBERTA MOTOR  
Association**  
EDMONTON CALGARY LETHBRIDGE

**Local and General Items**

Mr. Louis Cecchini is confined to his home with pneumonia.

Fred Link was in town from Beaver Mines district last week end.

Miss Evan Morgan returned home from Lamont Saturday morning.

Born to Mr. and Mrs. Louis Dorezo on Tuesday, April 1st, a daughter, Marie-Elizabeth.

Mrs. H. Hales is in Calgary, the guest of her daughter and son-in-law, Mr. and Mrs. E. Biegan.

Misses Ruth Oakes, Jean Montabetti, and Marion Oliver are spending the Easter week end in Calgary.

The 8th annual Easter dance under auspices of the Columbus Club will be held in their hall on Monday next.

Dr. and Mrs. W. Fraser, with their daughter Marion, of Creston, B.C., will spend the Easter holidays with relatives in Blairmore.

Miss Muriel McLeod left Monday for Calgary where she will enter the General Hospital as Nurse-in-training.

Miss Marion Oliver returned Tuesday from San Francisco where she has spent the last three months visiting relatives.

The annual Easter tea of the United Church Ladies Aid will be held this Saturday afternoon in the church auditorium.

Geo. C. Proctor, representing the Western Academy of Music, Vancouver, was in town this week making arrangements for the opening of a studio in Blairmore. Oliva hall has been engaged for the opening on May 3rd. Further particulars are to be found in their advertisement in this issue.

At Central United church there will be a Good Friday service at 11 a.m. with the senior girls' choir in attendance. Easter Sunday morning there will be Communion service at 11 o'clock with Mrs. A. McKay as soloist and the girls' choir singing. At the Sunday evening service the senior choir will present the Cantata, "King Triumphant" under the leadership of Mr. J. Boorman. You are cordially invited to be present at these services commemorating the Easter season.

**PASSING ON DISEASE**

The part heredity plays in forming the personality is still being studied, but medical authorities are unanimous in declaring that venereal diseases can certainly be transmitted from parent to offspring.

Officials of the Department of National Health and Welfare, Ottawa, urge everyone to have a blood-test. "Only by having a test and by undergoing proper medical treatment, if it is indicated, can you be sure that you are not passing on a serious disabling disease to those who come after you," they warn.

**NEW OCEAN TERMINAL  
TO WELCOME BRITAIN'S  
OVERSEAS VISITORS**

The world's finest passenger terminal is now under construction at Southampton Docks. It is designed to provide real comfort for all trans-Atlantic passengers arriving in the United Kingdom. The cost of this new gateway to Britain is estimated at \$2,000,000. The Manager of the Southampton docks says that the guiding principle is to eliminate discomfort caused by waiting in the cold on the quay for completion of Customs examination and passport formalities. There will be well heated waiting rooms on the first floor offering standard comfort at present unknown to ships passengers on any dockside, where visitors can relax in pleasant surroundings until their baggage and papers are cleared.

Mr. and Mrs. D. Brown left for Edmonton on Wednesday.

Mrs. John L. Wilson and daughter of Foremost, will spend the Easter holidays in Blairmore.

Born to Mr. and Mrs. Bill Stewart on Wednesday, March 26th, a daughter, Lesh Gail.

Mr. and Mrs. Hayne, of the Royal Bank, Foremost, will spend the week end holidays in Bellevue and Blairmore.

Owing to inclement weather the dance in aid of St. Chad's church at Lundbreck, planned for Dec. 11, had to be postponed. Its new date is April 19.

When a child starts asking questions, health authorities suggest they be given straight but interesting answers. For instance, they say, "When the child asks 'What is health?' don't go into a lecture or talk in riddles. Just say, 'It is opening windows, swatting flies, brushing your teeth, keeping yourself clean and regular, growing up to be strong and bright and active.' That will make health-habits attractive to them."

We are placing a stock of monuments in Blairmore. If you have a suitable building as show room and can sell monuments will you write Associated Memorials of Canada Limited, Edmonton, Alberta.
